

Tree Care Advisor Core Course 2010

Mark your calendars for the 2010 Tree Care Advisor Core Course in St. Paul, Minnesota! Training includes education on several topics including: tree identification, plant selection, basic physiology and morphology, soils, site analysis, diagnosis of disease and insect problems, pruning, planting and more. These trainings are geared towards individuals who may not know much about trees but do know they want to learn.

The Minnesota Tree Care Advisor program has been training tree stewards (TCAs) for communities since 1993 and since that time TCAs have contributed over 58,000 volunteer hours to Minnesota communities.

Who should attend the Tree Care Advisor Core Course?

Green industry professionals, Master Gardeners and those folks who have the desire to learn about trees and take that learned information and share it with others in their community.

When are the Tree Care Advisor training sessions?

February 27, 8:30- 3:30,
March 6, 8:30-3:30,
March 20, 8:30-3:30,
March 27, 8:30-3:30,
